# **CONTENTS OF VOLUME 38**

Aggressive signals, graded, in Blanchard's cricket frog: vocal responses to opponent proximity and size.  1025  Ammodramus maritimus peninsulae, function of song in  468  Ansa plasyrhychos, female mate preferences and male attributes in  ANDEW, R. J., see ROGERS, L. J.  ANDEW, R. J., see WORKMAN, L. J.  Ant, Grapenter, pre-imaginal experience and nestmate brood recognition in  Ant, fire, nestmate recognition, mechanism of template-label matching in  430  Ants, harvester, dynamics of task switching in  431  Ants, parset strategies of yellow warbler, the effect of brown-headed cowbirds on the evolution of  298  Anti-parasite strategies of yellow warbler, the effect of brown-headed cowbirds on the evolution of  298  Anti-parasite strategies of salamanders; responses of Eurycea bislineata to snakes  307  Anti-parasite strategies of salamanders; responses of Eurycea bislineata to snakes  308  Anti-parasite strategies of salamanders; responses of Eurycea bislineata to snakes  309  Anti-parasite structure and function; slope asystem and predation-prey interactions  318  Anurans, larval, behavioural responses to predators and predation risk in four species of  400  ARXIVERS, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  308  ARCESE, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  408  408  408  408  408  408  408  40	Agelaius phoeniceus, female, 'Chit' of; costs and benefits						866
ALBERTS, A. C. Ultraviolet visual sensitivity in desert iguanas: implications for pheromone detection  Amoundamem muritimus perhistuale, function of song in  Ans platyrhynchas, female mate preferences and male attributes in  ANDERW, R. J., see ROGERS, I.  Anti, carpenter, pre-imaginal experience and nestmate brood recognition in  489  Ant. fire, nestmate recognition, mechanism of template-label matching in  480  Anti, parasite strategies of velocity warbler, the effect of brown-headed cowbirds on the evolution of  288  Anti-parasite strategies of salamanders, responses of Eurycea bisineus to snakes  480  Anti-parasite strategies of salamanders, responses of Eurycea bisineus to snakes  480  Anti-parasite strategies of salamanders, responses of Eurycea bisineus to snakes  480  Antiparasite structure and function, slope asymmetry and predatior-prey interactions  480  Antiparasite structure and function, slope asymmetry and predatior-prey interactions  481  ARCESS, P. Intrasexual competition, mating system and natal dispersion in song sparrows  482  ARCESS, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  483  ARCESS, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  484  AND TARCES, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  485  ARCESS, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  486  ANOUNTS, G. Multiple mating in a water strider: mutual benefits or intersexual conflict?  487  AND TARCESS, P. Intrasexual competition and the mating system in primarily monogamous birds: the case of the song sparrow  488  AND TARCESS, C. A. ELLEY, N. R. The evolutionary significance of harem polygyny in the sand tilefish, Malacunthus plumieri: resource or female defence?  889  880  880  880					and sine
